

# Fabrics & Vinyls

Interior Resources has an extensive fabric selection suitable to meet the needs of any environment and level of use. For over 20 years, we have focused on selling quality contract fabrics constructed to perform as required in their respective settings. And most importantly we know that our customers always deserve quality at great prices.

In addition to durable fabrics and vinyls, we also provide specialty textiles for unique settings. These include Crypton brand protective fabrics, fire rated options and leather like high end vinyls.

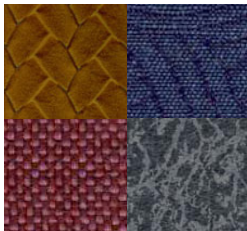

\*All fabric selections are available on our website.  
For swatches and fabric cards, please feel free to call our office.

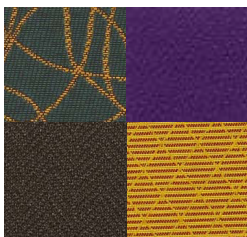

## Value Fabrics & Vinyls

Our value fabrics and vinyls can help meet the needs of even the tightest budget. Selection includes collections of small scale patterns in updated and coordinated colors, and durable vinyls in easy to coordinate solid colors. Made with a variety of blends that include acrylic, polyester, polyolefin and cotton, which are suited for hard use areas, our value fabrics and vinyls also offer flame retardancy and easy cleaning.

## Standard Fabrics & Vinyls

Our standard fabrics and vinyls include contemporary patterns in coordinated colors as well as beautiful solid colors. Like our value fabrics and vinyls, they are produced in blends of acrylic, polyester, polyolefin and cotton, which are suited for hard used areas. Collections in the standard fabrics and vinyls offer quality and style at an affordable price.

## Fire-Rated Fabrics & Vinyls

Our fire rated fabrics and vinyls are especially unique, as they go through extensive testing and treatment for flame resistance. They are designed to be used in high fire risk environments. These collections combine state of the art technology with a full range of colors and patterns that will exceed even the most stringent fire code requirements.

## Crypton Fabrics

Crypton fabrics are in a league of their own - Crypton is the only patented and tested process capable of delivering permanent protection against stains, moisture, bacteria and odors. Available in contemporary and traditional patterns, beautiful solids and ultrasuedes, Cryptons offer unmatched durability and simple maintenance.

# Laminates & Finishes

While most companies try to limit their color selections to make life simple for them, we offer a huge assortment of color and finish options to make life creative for you. There are too many choices to show here, but they are displayed on our website for easy selection. Almost every product we provide has multiple options so you can customize the furniture to your liking.

Our talented design and sales team can help you coordinate finishes, fabrics and colors to make your environment attractive and intriguing. Having all that choice does not mean you have to give up on durability and practicality. We use proven name brand laminates, protected wood finishes and exceptionally tough metal finishes. As always, Interior Resources delivers the perfect combination of style and function.

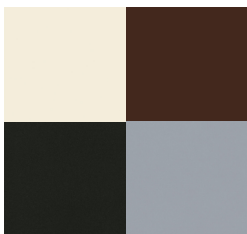

## Laminates

We use Wilsonart High Pressure laminates for many of our products. The advantages of laminates include durability and easy maintenance. We primarily use them on tops of chests, nightstands and tables. On most products, we coordinate a woodgrain laminate to the particular wood finish of the piece. For our dining tables you can choose from hundreds of woodgrains, patterns and solid colors to customize the look of your furniture. To view the available options for each individual furniture style, visit our website at: [www.interiorresourcesusa.com](http://www.interiorresourcesusa.com)  
See the entire Wilsonart laminate line at: [www.wilsonart.com](http://www.wilsonart.com)

## Wood Finishes

While we feature a variety of wood finishes on most of our furniture, some pieces have a unique finish that is specific for that style. All our wood finishes are protected and enhanced by a clear catalyzed lacquer topcoat. To view the exact finishes available for each line of furniture, visit our website, or consult our pricing guide. For most orders we can also customize a wood finish to match your specific project needs. Our standard wood finishes include; Natural Maple, Wild Cherry, Mahogany, Walnut and Natural Oak.

## Metal Finishes

Many of our most durable pieces include metal frames or bases. For example, the Hudson Forge bedroom, dining and lounge styles all include metal frames. However, that doesn't mean you have to give up creativity. We offer multiple colors for most products that have metal details. As always we keep an eye on durability. Our metal finishes are applied with state of the art electrostatic powdercoat systems. This high tech system insures a consistent and chip resistant finish that will hold up in the toughest environments. Check our pricing guide or website for the options available for each furniture style.
