NEW YORK, NY

PATIENT LOUNGE & WAITING AREA

WRITING DESK & CHAIR

PATIENT ROOM FURNITURE

COMMUNITY DINING AREA

New York Hospital is a multi-faceted healthcare facility. Serving the needs of longer term psychiatric patients requires that the hospital strive for a more residential approach to the furnishings.

Interior Resources has helped to achieve that goal by customizing many different aspects of the furniture. Breakaway clothes rods and full length hinges fulfill some of the safety concerns. Laminate tops and sealed finishes provide the necessary hygienic features that allow this hospital to operate more like a residential facility.
